

LTP Thematic Curriculum 2018-19

Please find the Yearly Overview for our Thematic Curriculum here at APWG. In our Thematic subjects we cover the History, Geography, Art, Music, Design Technology and Computing curriculum.

Each topic is launched with a Stunning Start to really engage the children with their new topic, a Marvellous Middle to focus on a key area or to allow time to complete a theme day or extended project and a Sensational Showcase to share what we have learnt with a variety of different audiences.
